

*Internship Cohort, Fall '24*

HARP Research, Inc. is an RPI-based startup founded in 2023 with a focus in applied research and a culture founded on mutual respect. With 12 RPI students and Alumni and a team of 14, we celebrate our alma matter. Our internship program participants receive a customized internship plan with actionable deliverables and participant-specific talent development goals.

## Values

- Open-core Development
- Innovation Beyond Incrementation
- Sustainable AI

## Mission

*To create technology that empower individuals, organizations, and anyone else to harness the power of automation for creation.*

“Working at Harp Research has been a great experience for me. From day one, I’ve always felt very welcomed by the team and felt like I was doing valuable work. The environment is very collaborative and my coworkers are great. It is a company where you are required to be a self-starter but the work is very fulfilling. Great place to work.”

**- David Wang, ITWS Intern  
Summer '24**
